21st Century EMI Land Disposal Restriction Notification

Generator: Douglas Aircraft Company EPA ID # CAD086510005
Manifest # TNH-98002 Profile # 150334-00

For Waste on Manifest Line #: ☒ 11a ☐ 11b ☐ 11c ☐ 11d

This waste is subject to the Land Disposal Restrictions of 40 CFR 268: It is (check one):

- ☐ A Wastewater [40 CFR 268.2(f)] ☐ A Non-Wastewater [40 CFR 268.2(d)] ☐ Halogenated Organic Compounds (HOC) \geq 1000 ppm (40 CFR 268 Appendix III)
☐ Debris subject to Treatment Standards. (40 CFR 268.40) ☐ Debris subject to Alternative Treatment (40 CFR 268.45)
☐ PCB \geq 50 ppm

List in the spaces below the required EPA Waste Code(s), Subcategory(ies), Debris Contaminant(s) requiring treatment, & applicable five (5) letter treatment code(s).

EPA Waste #, "Code"	Subcategory	Debris Contaminant	5 Letter Treatment Code

If applicable, check all underlying constituents (UHC) on the UHC List (located on reverse side or on attached sheet) which can reasonably be expected to be present in this waste at a concentration above the constituent-specific treatment standard.

Check the One Category Below Which Describes This Material and Then Sign in Space at the Bottom of This Form

Material NOT Subject to Land Disposal Restrictions BECAUSE:

- ☐ Material is from a conditionally exempt small quantity generator
☒ Material is a NON-RCRA Waste
☐ Restricted Waste Exempted from Prohibition on Type of Land Disposal Method for Waste Type. [40 CFR 268.7(a)(3)]

Date Waste will be subject to prohibitions _____

- ☐ **Restricted Waste Meets Treatment Standards without Treatment** [40 CFR 268.7(a)(2)(i)]
I certify under penalty of law that I personally have examined and am familiar with the waste through analysis and testing or through knowledge of the waste to support this certification that the waste complies with the treatment standards specified in 40 CFR 268.32 or RCRA section 3004(d). I believe that the information I submitted is true, accurate and complete. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment.
- ☐ **Restricted Waste Treated to Treatment Standards.** [40 CFR 268.7(b)(5)(i)]
I certify under penalty of law that I have personally examined and am familiar with the treatment technology and operation of the treatment process used to support this certification and that, based on my inquiry of those individuals immediately responsible for obtaining this information, I believe that the treatment process has been operated and maintained properly so as to comply with the performance levels specified in 40 CFR part 268, subpart D, and all applicable prohibitions set forth in 40 CFR 268.32 or RCRA section 3004(d) without impermissible dilution of the prohibited waste. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment.
- ☐ **Restricted Waste Treated to Technology Based Treatment Standard(s)** [40 CFR 268.7(b)(5)(ii)]
I certify under penalty of law that the waste has been treated in accordance with the requirements of 40 CFR 268.42. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment.
- ☐ **Restricted Characteristic Waste Treated to Remove the Hazardous Characteristic Only** [40 CFR 268.7(a)(10)(b)(5)(iv)]
I certify under penalty of law that the waste has been treated in accordance with the requirements of 40 CFR 268.40 to remove the hazardous characteristic. This decharacterized waste contains underlying hazardous constituents that require further treatment to meet universal treatment standards. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment.
- ☐ **Restricted Waste Exceeds Treatment Standards or Prohibition Levels** [40 CFR 268.7(a)(1)]
The restricted waste identified above must be treated to the applicable treatment standards promulgated in 40 CFR 268.40 or treated to comply with applicable prohibitions set forth in Part 268.32 or RCRA Section 3004(d). Analytical attached where available.

SUBSTANCES - TOXIC AND/OR CORROSIVE
(NON-COMBUSTIBLE)

NAERG96
Page 1 of 2

POTENTIAL HAZARDS**FIRE OR EXPLOSION**

- Non-combustible, substance itself does not burn but may decompose upon heating to produce corrosive and/or toxic fumes.
- Some are oxidizers and may ignite combustibles (wood, paper, oil, clothing, etc.).
- Contact with metals may evolve flammable hydrogen gas.
- Containers may explode when heated.

HEALTH

- **TOXIC**; inhalation, ingestion, or skin contact with material may cause severe injury or death.
- Contact with molten substance may cause severe burns to skin and eyes.
- Avoid any skin contact.
- Effects of contact or inhalation may be delayed.
- Fire may produce irritating, corrosive and/or toxic gases.
- Runoff from fire control or dilution water may be corrosive and/or toxic and cause pollution.

PUBLIC SAFETY

- **CALL Emergency Response Telephone Number on Shipping Paper first. If Shipping Paper not available or no answer, refer to appropriate telephone number listed on the inside back cover.**
- I isolate spill or leak area immediately for at least 25 to 50 meters (80 to 160 feet) in all directions.
- Keep unauthorized personnel away.
- Stay upwind.
- Keep out of low areas.
- Ventilate enclosed areas.

PROTECTIVE CLOTHING

- Wear positive pressure self-contained breathing apparatus (SCBA).
- Wear chemical protective clothing which is specifically recommended by the manufacturer.
- Structural firefighters' protective clothing is recommended for fire situations ONLY; it is not effective in spill situations.

EVACUATION**Spill**

- See the Table of Initial isolation and Protective Action Distances for highlighted substances. For non-highlighted substances, increase, in the downwind direction, as necessary, the isolation distance shown under "PUBLIC SAFETY".

Fire

- If tank, rail car or tank truck is involved in a fire, ISOLATE for 800 meters (1/2 mile) in all directions; also, consider initial evacuation for 800 meters (1/2 mile) in all directions.

EMERGENCY RESPONSE

FIRE

Small Fires

- Dry chemical, CO₂, or water spray.

Large Fires

- Dry chemical, CO₂, alcohol-resistant foam or water spray.
- Move containers from fire area if you can do it without risk.
- Dike fire control water for later disposal; do not scatter the material.

Fire Involving Tanks or Car/Trailer Loads

- Fight fire from maximum distance or use unmanned hose holders or monitor nozzles.
- Do not get water inside containers.
- Cool containers with flooding quantities of water until well after fire is out.
- Withdraw immediately in case of rising sound from venting safety devices or discoloration of tank.
- ALWAYS stay away from the ends of tanks.

SPILL OR LEAK

- ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area).
- Do not touch damaged containers or spilled material unless wearing appropriate protective clothing.
- Stop leak if you can do it without risk.
- Prevent entry into waterways, sewers, basements or confined areas.
- Absorb or cover with dry earth, sand or other non-combustible material and transfer to containers.
- DO NOT GET WATER INSIDE CONTAINERS.

FIRST AID

- Move victim to fresh air. ● Call emergency medical care.
- Apply artificial respiration if victim is not breathing.
- **Do not use mouth-to-mouth method if victim ingested or inhaled the substance; induce artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device.**
- Administer oxygen if breathing is difficult.
- Remove and isolate contaminated clothing and shoes.
- In case of contact with substance, immediately flush skin or eyes with running water for at least 20 minutes.
- For minor skin contact, avoid spreading material on unaffected skin.
- Keep victim warm and quiet.
- Effects of exposure (inhalation, ingestion or skin contact) to substance may be delayed.
- Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.
